

PRESS RELEASE

May 23, 2024

In our previous [Press Release \(PR-1\)](#) we provided links to Amy Sherlock's Motion to Vacate a Void anti-SLAPP Judgment filed May 9, 2024, in San Diego Superior Court. This motion was based in large part on recent findings of systemic pay-to-play corruption in the City of San Diego's adult-use cannabis licensing processes. It was also based on one of the defendants ADMITTING to this corruption and providing evidence of it as well as new forensic evidence which provides proof that Amy Sherlock's husband, Biker, the licensee of record on not one but two of these highly sought after licenses, (according to one of the nation's leading crime scene investigators) who concluded Biker definitely did not die by suicide but rather was murdered.

President Austin Legal Group, and a
Self-Avowed Expert in Cannabis Law
and Regulation

PR-1 provided the links to Amy Sherlock's Motion to Vacate (MTV) Void Judgment as well as numerous supporting documents that would have required the opposition (Gina Austin) to address the essence of the criminal charges having been set forth. They did not. Instead, they relied on what can only be seen as procedural issues in the MTV that completely ignored the essence of what is contained in Amy's MTV. This response is a continuing assault on Amy, her 1st Amendment rights and a further example of how these Goliath-esque forces have used the law, and their power, to suppress those who would seek to expose their Machiavellian tactics. Tactics that allow criminals to create monopolies in adult-use cannabis as they hide behind proxy licensees, so that their real identities won't be known. In an industry now swimming with Goliaths, there are very few David's. **Amy Sherlock is a David!**

We cordially request media presence to attend this hearing and have provided the MC-500 link that must be submitted to the court so the media request may be considered.
